Valley View Public Schools has installed a content filter

While no filter can give 100% guarantee to block sites which do not meet educational standard of Valley View Public Schools, this filter is very accurate and is CIPA and HIPAA compliant.

**Teachers should supervise students doing any kind of Internet Search**.

If a page gets blocked (see example below) that shouldn't be blocked, please submit a Technology Workorder stating this page is being blocked, and you believe it shouldn't be blocked. Please include on your workorder the full URL of the webpage (ie.   www.facebook.com) .   If you get another error (ie. PAGE NOT FOUND) this is usually not a content filter issue, but a problem getting to the website. Please check the spelling of the website.

EXAMPLE of a BLOCKED PAGE:

Page Blocked

Access to the requested site has been restricted due to its contents.

URL/Content: www.cnn.com
Description: _Website contains prohibited content_
Group Number: _2_
IP Address: _10.7.8.21_
